movement indicate another addition to the New York cash holdings, but it is clear that the current is turning in favor of the interior. Government operations continue to yield large, sums to the New York market, which will be a safeguard against depletion by the interior demand so long as the treasury authorities shall not fell constrained to withdraw deposits with the national banks in order to replanish their working balances.

With the high pieces for grain ruling it is not likely that the interior crop moving demand will be less than usual. The salvance in exchange today was sufficient to revive some discussion of gold export probabilities. Probably these prospects in the money market had some repressive effect on speculation, although the money market was unaffected. The further advance in Smelling and the strength of the Mexicans were of a special character and of little general effect. The grangers succumbed to the spring wheat disaster rumors in the late dealings and helped to make the closing easy.

Bonds were firm Total sales, par value, \$2.15.000. United States bonds were unchanged on call.

General Hopeful Feeling in the World

NO CHANGE IN CONDITIONS.

NEW YORK, Aug. 19.-Advices reeived by the International Mercantile igency show that there has been little change in business conditions during the week except in districts specially affected by reports of crop damage and disturbance incident to the cut in steel prices. Business on the whole shows up prices. Business on the whole shows up well, and in most retail lines is fully holding its own. In certain sections of the West trade has been decidedly stimulated, with improved distribution and generally hopeful feeling.

Commercial centers are beginning to feel the impetus of summer travel and buyers are flocking to distributing points, disposed to buy liberally although with marked discrimination.

though with marked discrimination. This is a good sign and shows that replenishment this year will be conducted along conservative lines. More season-able weather throughout the Southwest has led to better results in many lines, especially in dry goods and various branches of apparel. Boot and shoe or-ders are in better volume, and jobbers in hats and caps are forcing factories to work overtime to keep up with cur-rent business. This improvement has extended to the clothing industry, the outlook for which in some sections was reported to be rather uncertain a week ago. Less stock than usual is believed to have been carried over in many lines owing to the known conservatism of prominent dealers. Their experience last winter was suggestive of the greater care that was displayed this year in avoiding the "overstocking evil" spring and summer goods.

An excellent demand is noted for groceries, especially staples, where prices are firm and distribution is for the most part satisfactory. Encouraging re-turns are shown in dry goods, and in paints and oils. Leather has been active at the South with better advance in prices, owing to the scarcity of properly cured hides. The wool market has also strengthened somewhat and tobacco in

general is holding firm.

While the final results are in a measure dependent upon the crop develop-ments, it is noteworthy that the dis-tricts which would suffer the most from a disastrous shortage have not been alarmed by the excitement that has attended this week's trading in wheat options at New York, Chicago and Minneapolis.

What Bradstreet Says.

New York Metals.

NEW YORK, Aug. 19—Tin was firm in London, with spot quoted at f122 5s and futures f122 7s 6d, but was easier locally, where spot is quoted at \$28 5672,60.

Copper was a little lower in the English market, where it closed at f57 2s 6d for both spot and futures. Locally, the market held steady. Lake and electrolytic are quoted at \$12.50812.75, and easifing at \$12.5081250. Some of the large producers are holding lake at \$12.6216912.75.

Local was a little caster in London, where it closed at f11 5s, but was a shade behind in the local market, closing at \$1.20. \$64.25. NEW YORK, Aug 19.—Bradstreats to-morrow will say. 'Conservatism rules the buying movement, which, while gain-ing in force at some leading markets, still lacks the snip shown in former years at this time. The lateness of the crop sea-son reports of wheat and cotton crop de-terioration, fortified by continued wheat Spetter was quoted at \$8.894.55 in the local market and at £21 in London. Iron closed at 525 in Glasgow and at £35 dd in Middlesboro. Locally, tron was unchanged No. 1 foundry Northern & quoted at \$11.00g14.50, No. 2 foundry Northern, \$12.75g/14.00, No. 1 foundry Southern and No. 1 foundry Southern soft, £12.50g/13.75.

price advances and revisions of quota-tions, notably in iron and steel and cot-ton goods, breeds a feeling of indecision. Cotton goods buying at first hands is rather backward and does not readily re-spond to reductions in bleached goods. There is, however, more jobbing in that line.

There is, however, more jobbing in that line. "Wool is firmer on a quiet buying movement. Woolen goods are in fair inquiry, but the higher basis of cost is a bar to fullest development in this line. The scarcity of bides has caused the shutdown of a number of tanneries, and the strength of the market is shown in leather quotations, half a cent per pound higher than a month ago. "A wholesale cut in steel prices, particularly in wire and nails, has been announced and existing pools in some products, notably structural material and plates, are reported shaky. Uncertainty as to how far the cuts will go restricts buying.

as to how for the cuts will go restricts buying.

"Business failures in the United States for the week ending August 18 number 283, against 167 last week, 166 in the like week in 1905, 181 in 1901 and 125 in 1900. In Canada failures for the week number twenty-five, as against 160 last week and fourteen in this week a year aga.

week and fourteen in this week a year ago.

"Wheat, including flour, exports for the week ending August 18, aggregate 1.705.917 bushels, against 1.281.399 last week 3.572.789 this week last year From July 1 to date the exports aggregate 2.549.818 bushels, against 21.832.232 last year 31.340.767 in 1902.

"Corn exports for the week aggregate 520.362 bushels, against 65.202 last week, 59.495 a year ago. From July 1 to date the exports of corn aggregate 3.799.473 bushels, against 7.485.597 in 1903."

Dun's Review of Conditions.

Dun's Review of Conditions.

NEW YORK, Aug. 19.—R. G. Dun's Weekly Review of Trade tomorrow will say. "Trade has been somewhat unsettled by sensational events in the wheat market and the lack of harmony between labor and capital. It is becoming evident that estimates of the wheat crop must be reduced, although other agricultural news is much better. Insofar as the purchasing power of the farmer is concerned, prices have risen so sharply that any loss in quantity promises to be made up.

"Some disappointment is felt by those who counted on an early resumption of activity in building operations and other industries have occurred by labor controversies. Otherwise news of the week has contained much of an encouraging nature. In several manufacturing lines there is less idle machinery and visiting retail buyers have stimulated jobbing trade, especially in dry goods and kindred lines." Railway earnings this far reported for

Railway carnings this far reported to

"Railway earnings this far reported for the first week of August show a small gain of 14 per cent as compared with last year's ligures, whereas recent pre-ceding weeks showed more or less loss in comparison with 1962. "Failures this week numbered 228 in the United States against 28 last year and 24 in Canada, compared with eight a year

Bank Clearings.

NEW YORK. Aug. 19-The following table, compiled by Bradstreet, shows the bank clearings at the principal cities for the week ended August 15, with the percentage of increase and decrease as com-

pared with the corresponding week last
